

Forestry Management Solution

Questions

Are you losing track of leads?

Do you struggle to track grant payments?

Have you a process for managing licence applications?

Acclivity Forestry Management Solution

If you answer yes to any of the questions then our Forestry Management Solution can help you. Working with some of the leading forestry companies Acclivity has developed a system to keep track of all your projects, reduce administration costs and give you visibility of what's happening in your business.

✓ **Everything in one place**

Permanents, secure and easily retrievable storage for all your business information. Store maps, contracts, emails and records of calls.

✓ **Manage your new leads**

Ensure leads are followed up. View graphically what leads each Forester is responsible for and set follow up reminders to ensure you're keeping them warm.

✓ **Track Form 1, 2 & 3 submissions**

Never lose track of a grant again. The system tracks submission dates and notifies you when follow up is required.

✓ **Harvest Docket Processing**

Record all delivery & weighbridge dockets, keep track of what's been paid and what is owed to your customer.

✓ **Felling & Road Licences**

Manage all your licence applications, have the system track what's overdue and remind your team.

✓ **Secure**

Keep as much data as you need. Restrict who sees what. Ensure GDPR compliance.

✓ **Mobile**

Your team can access their data with our mobile app

Keeping you informed..

Configure the system to notify when something happens, to remind staff to follow-up or to highlight issues with your operations. Have it trigger notifications internally or to 3rd parties when issues arise. Use colour rules to highlight records within the system.

Use the Dashboard functionality to get a real-time view of what's happening.

Drill down from your reports to the underlying records.

We can create bespoke reports to match your existing stakeholder reports. Our applications provides comprehensive reporting functionality that will meet all your business needs.

Optimise your forestry operations with this easy to use CRM solution

About Us

Acclivity CRM has become a leading provider of business software solutions to the Forestry industry. Acclivity has customers across a range of industries both in Ireland and abroad.

We focus on building long term relationships, understanding our customers and making sure our systems continue to evolve to meet client needs. It is our goal to provide our customers with enough knowledge that they become self-sufficient in the day-to-day management of the application and capable of evolving it in line with their requirements

We believe in a “Best in Class” approach to implementations. Client workshops are carried out to determine exact requirements and we work with your staff to drive adoption

Acclivity CRM is a Maximizer CRM Certified Solutions Partner, Acclivity specialise in deployment, customisation and training on Maximizer CRM.
